DIVISION OF OIL  
GAS & MINING

August 12, 1985

Western Clay Company  
P.O. Box 1067  
Aurora, UT 84620

Gentlemen:

RE: Notice of Plan of Mining Operations, ML 1937, May 15, 1985

Your plan of operations on Utah State Clay Lease ML 1937 has been reviewed and appears to be in order. You may proceed with operations as outlined in the plan upon the following conditions:

1. All disturbances resulting from operations on the lease will be fully reclaimed in compliance with the lease and to the satisfaction of the Division of State Lands and Forestry.
2. The Division of State Lands and Forestry is notified when reclamation is completed and the site is ready for inspection.
3. A surety bond be posted with the Division of State Lands and Forestry, in an amount to be designated by the Division of Oil, Gas, and Mining, to insure reclamation of all disturbances resulting from operations on the lease.
4. Compliance with the State of Utah Antiquities Act forbidding disturbance of archeological, historical, or paleontological remains; and the immediate suspension of operations and notification of the Division of State History in the event such remains are encountered.

Sincerely,

JERRY W. MANSFIELD  
MINERAL RESOURCES SPECIALIST
